Distributors of Quality Fasteners
and Electronic Hardware

www.towerfast.com

Family Owned and Operated Since 1967...

Thomas J. Shannon founded Tower Fasteners in 1967. Mr. Shannon's philosophy was simple: provide his customers with the products they needed, when they needed them, without fail.

Over the past fifty years Tower Fasteners has become a leader in the field of fastener distribution and inventory management systems. Tower is committed to supplying products from only the highest quality fastener manufacturers in the world.

With over 80,000 square feet of warehouse space in eight distribution

centers along the east coast, the Southwest, Mexico and Europe, Tower has a diverse inventory and will offer a rapid response to your inquiry. Each one of our distribution centers has local customer service representatives as well as outside field sales support to assist with all of your fastener needs.

Featured Manufacturers

southco®

SOUTHCO is a world leader in the design and manufacture of access hardware. Tower maintains a large inventory of latches, 1/4 turn fasteners, captive screws, display mounts, and hinges.

KATO®

KATO is the original inventor and manufacturer of the bi-directional Tangless screw thread insert. All KATO CoilThread tools work with Helicoil, Recoil, and Boellhoff inserts.

RAF™

RAF ELECTRONIC
HARDWARE

As an authorized distributor for RAF Electronic Hardware, Tower has a full stock of stand-offs, spacers, handles, shoulder screws and jack screws.

PEM self clinching fasteners are recognized around the world for quality and precision performance. Tower is one of the world's largest authorized PEM distributors.

For more than sixty years, Keystone Electronics has been manufacturing precision electronic interconnect components and hardware.

QUALITY POLICY

Tower Fasteners is committed to providing our customers with defect free products that comply with all applicable standards and to provide these products in a timely and efficient manner. Our commitment to quality begins with our supply base which is monitored by a series of critical measurements and clear and concise communications.

We have established our QMS in accordance with the requirements of ISO 9001-2015 and AS9100D. Other quality requirements may be established as required by our customer or in accordance with the products and services that we provide.

Quality
ISO 9001

We Are Committed To...

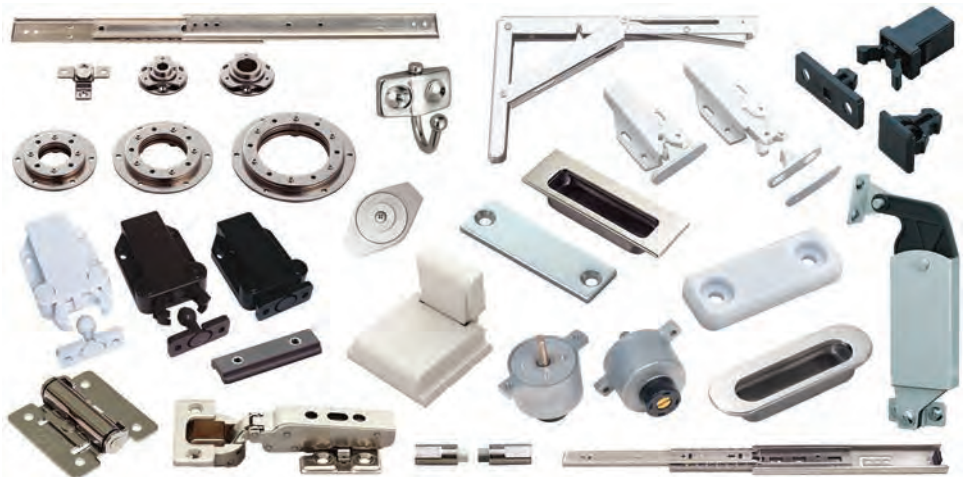

- Defect free products
- On time delivery
- Customer satisfaction
- Continuous improvement
- Risk management
- Relationship building

HEYCO Molded Products is the source for plastic and metal fittings and connectors, strain relief bushings, hole plugs, wire connectors, and much, much more.

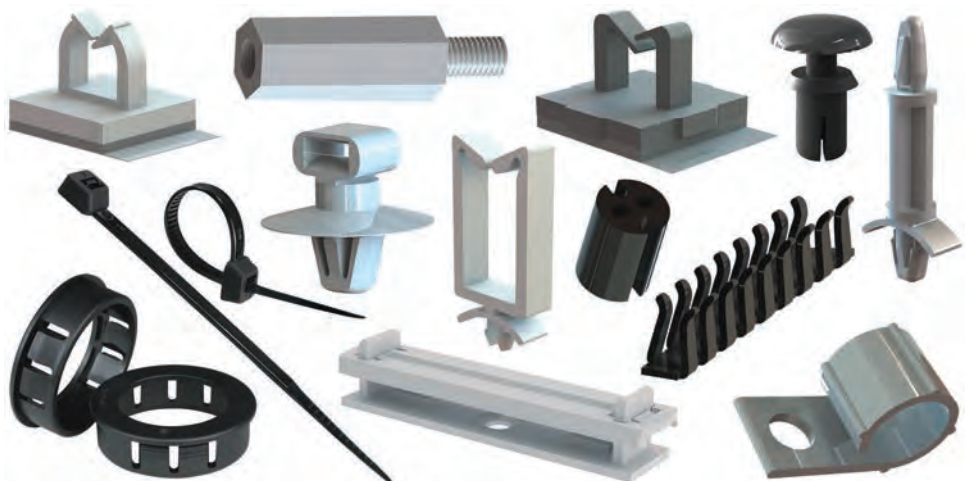

Sugatsune manufactures high-quality cabinet hardware, including hinges, lid stays, door pulls, handles, drawer slides, magnetic catches, and latches.

ESSENTRA COMPONENTS

Essentra manufactures small, essential components, such as protective plastic caps, workholding clamps, fasteners, handles, knobs, and PCB hardware.

Value Added Services

TOWER T.I.M.E. (TOTAL INVENTORY MANAGED ELECTRONICALLY) PROGRAM

T.I.M.E. is an innovative inventory management system that is field tested to provide the absolute best in inventory management. With the Tower T.I.M.E. program, our personnel will monitor your inventory levels, replenish your stock and maintain a mutually agreed upon safety stock level. T.I.M.E. helps customers reduce costs and overhead, increase your inventory turns and eliminates in house inspections.

LOCAL DELIVERY

In an effort to provide our customers with rapid response to their product needs, each Tower Customer Service Center is equipped with its own delivery vehicles to make same-day local deliveries.

STATE-OF-THE-ART QUALITY CONTROL

Tower is committed to providing only top quality products with complete lot traceability. Our Quality Management System is registered to ISO 9001-2015 and Mil 45208-A compliant. We specialize in military and aerospace fasteners to AN, MS, NAS numbers. Towers compliance department will satisfy all of your RoHS, REACH, MSDS, Country of Origin and Conflict Mineral needs.

PACKAGING AND BAR-CODING

Tower can offer you a solution to all of your packaging and kitting needs. With three state of the art packaging machines and years of experience we can satisfy short runs, long runs and package more than one part per bag. Let us customize a label for you complete with bar code, your company logo and full lot control information.

EXPERT ENGINEERING ASSISTANCE

Let Tower Fasteners be the first place you turn to with a fastening or hardware problem. Whether you are trying to solve a design problem, or just want a fresh perspective, think of Tower as your value-added design and engineering resource. We have expertise in all areas of manufacturing including but not limited to Consumer Products, Medical, Automotive, Furniture, Telecom, Datacom/Computer, Toys, Marine, Military, Gaming, and Aerospace.

ELECTRONIC DATA INTERCHANGE (EDI) PROGRAM

With our EDI Program, your company can take advantage of the latest technology by electronically forwarding purchase orders, requests for quotations, or expedite requests to our systems electronically. Once that is done, Tower does the rest!
